**DEVELOPMENTS ARE DRAMATIC.****Beattie Tells of Cousin's Perturbation.****er of Dead Girl Comes as Sudden Witness.****e Compels Women to Leave Courtroom.****P. NIGHT WIRE TO THE TIMES.]****STERFIELD COURTHOUSE**

Aug. 28.—Paul D. Beattie, of Henry Clay Beattie, Jr., who indicted for the murder of his wife took the stand today that he had done it, "a circumstance to the crime that the witness had suppressed.

"Did Beattie ever go out with his wife alone?" asked Mr. Wendenberg.

"Not until that night."

Here the court decided to retire to a jury room to discuss certain points concerning prospective testimony of the witness.

"I think the prisoner should be present," suggested Mr. Wendenberg.

and the court agreed.

**MOTHER CAME SECRETLY.**

Mrs. Owen had come from Del. last night with her husband, who accompanied her to the courtroom. She stepped from an automobile into the courtroom and took the witness stand without being spoken, the customary announcement of a witness by the sheriff being dispensed with by previous plan of the prosecution.

The prisoner raised his head in surprise, recognized the woman, and looked down again.

At first he endeavored not to look in her eyes, but she spoke so feebly that he could not help it, and so he joined the row of projecting heads on the bench to hear her testimony.

Once he nervously whispered to Attorney Smith beside him:

"Ask her to speak louder, I can't hear."

Mrs. Owen is said to have been her daughter's confidante and is believed to have known of Beattie's relations with the Blinfold girl. On the stand Mrs. Owen told how she arrived at the Beattie home on May 22, of the birth of the Beattie child on May 21, and hinted at the tribulations of her daughter, caused by Beattie's relations with the Blinfold girl.

Mrs. Owen sat calmly in the witness chair, while her gray-haired husband fanned her.

Gowned in heavy black, a thick veil gave only a partial glimpse of the woman's features. When court recessed she was still in the witness chair.

Following the conference, the examination of Mrs. Owen was resumed. The testimony showed that the physical condition of young Beattie became known to his wife on the Thursday before she was killed.

"You were present on several occasions when the prisoner called at the residence of Tom Owen. Who in-

vited you?"

"Mr. Owen."

"On the fatal night who invited you?"

"NO TEARS ON HIS CHEEKS.

"No one on the night of the murder I asked Beattie what he had been so cruel as to kill an innocent girl. He gave no explanation, but said: 'Take me out of the room.' He gave no explanation."

"Did you notice any tears on the prisoner's face then?"

Cross-examination then began by Mr. Carter for the defense.

The attorney drew from Mrs. Owen the admission that she knew nothing of Beattie's condition was based purely on her own imagination.

**DOCTORS TO BUTCHER HOGS.**

They Have a Notion That Infantile Paralysis Comes Out of an Indiana Pig Sty.

[BY DIRECT WIRE TO THE TIMES.]

INDIANAPOLIS (Ind.) Aug. 28.—[Exclusive Dispatch.] The State health authorities believe they can trace infantile paralysis to Shelby county, where several children have the disease, to hogs owned by a farmer on whose land the children live. They are preparing to make experiments to decide beyond dispute whether the disease comes from the suspected source.

Dr. J. P. Simonds, superintendent of a pathological laboratory, has gone to Shelbyville to obtain specimens of the hogs on Cherry farm. According to instructions from the institute, parts of the spinal cord of suspected animals will be sent to the laboratory, where cultures will be made, and the cultures used on the throats of monkeys.

Wife Can Play the Piano and Husband Can Beat the Drums in New Stockton Home.

[BY DIRECT WIRE TO THE TIMES.]

STOCKTON (Cal.) Aug. 28.—[Exclusive Dispatch.] Over the strong protest of her parents, Miss Ida May Wolf was wedded to William B. Peterson, and the couple are in San Francisco today en route to Los Angeles on a honeymoon.

David Wolf is president of the local musicians' union, and Peterson plays the drums in the local union band. Mrs. Peterson is an accomplished pianist. Music brought them together.

Her father and mother refused to consent to her marriage and the couple took matters in their own hands. When the pair went to the County Clerk's office late Saturday for the license, Miss Wolf stopped at the entrance and wanted to turn back, but Peterson took her by the arm and urged her to appear before the clerk for the necessary paper.

Wolf declares he and his wife have not extended forgiveness to the couple but it is believed all will end well for Mr. and Mrs. Peterson, who will ride here.

Arizona Governor Hears from the President That Statehood Resolution Is Passed and Signed.

[BY A. P. NIGHT WIRE TO THE TIMES.]

PHOENIX (Ariz.) Aug. 28.—[Exclusive Dispatch.] William C. Sloan today received from President Taft official certification of the passage of the Statehood resolution which authorizes him to issue a proclamation for an election of State officers and for a vote on the recall of the judiciary clause of the original Constitution.

In answer to an inquiry as to a probable date for the election Gov. Sloan said tonight:

"I want to be fully advised as to how much time should be allotted the campaign, having in view the direct primary, which must be held the fifth Tuesday after the proclamation, so I will make no announcement for a few days. I think plenty of time should be allowed for the canvassing of the primary and the campaign should be of reasonable length."

## WHO WORE JUMPERS KEEPS HUSBAND ANYWAY.

[BY DIRECT WIRE TO THE TIMES.]

(20) Aug. 28.—[Exclusive] Alfred Shepard of Fort Valley, Ga., who made \$100,000 a year selling oranges in Oregon, had been sent here by his parents to their daughter, Mrs. Shepard, in Bakersfield, Calif. They were winning their son, away from his wife, the plaintiff, his husband on whom she worked pitch hay. She was willing to undergo whatever privation she loved, and her husband, a man in a manual labor job, was not long ago married and mothered a child. She accuses her parents of prejudicing his mind by coaxing, threats and artifices.

He was then hooted out of camp.

Mrs. Philpup was apparently prostrated on the affair becoming public, and asked her husband to be allowed to go to Seattle till "it blew over." He consented and thought she was preparing to do so when he left to check. However, she returned two hours later to find her dead with bullet wound in her breast, and the revolver in her nerveless hand.

Portland the Scene of the Second Ceremony.

Romance That Could Not Wait for Orders.

[BY DIRECT WIRE TO THE TIMES.]

PORLAND (Or.) Aug. 28.—[Exclusive Dispatch.] Miss Jean Kerr, daughter of Alexander H. Kerr, one of Portland's wealthiest jobbers and by right of birth an English Lord, was secretly married last Wednesday at Vancouver, Wash., to Kenneth Holbrook of Boston. Tonight the young couple were principals in a second wedding at the First Presbyterian Church in this city, insisted upon by Mr. Kerr as condition precedent to parental blessing.

Mrs. Holbrook is one of the most prominent members of the younger social set in Portland. She is 19 years old. Mr. Holbrook is 21.

**THEIR ROMANCE.**

The couple met for the first time last May at Hood River. Their romance ripened rapidly and while the young woman's parents offered no objection to the match, that wanted the young people to wait. They could not see the soundness of this view, and so last Wednesday they went quietly to Vancouver, obtained their license and were married at the Methodist parsonage, by the Rev. J. M. Carson.

A SCENE FOLLOWS.

When Mr. and Mrs. Holbrook returned, and told the bride's parents, it was decided to postpone the second wedding had been agreed upon. Tonight it took place before a church full of the most prominent society people of Portland.

Mrs. Holbrook is a most attractive young woman. She went on a trip to Europe recently with her brother, Charles Kerr, and their father at the time he took one of his titles as an English Lord. Mr. Kerr is a Lord of three manors.

At Eighty Years Inventor of Drop Harness Wins in Bitter Contest With His Daughters.

[BY DIRECT WIRE TO THE TIMES.]

SAN FRANCISCO, Aug. 28.—[Exclusive Dispatch.] Robert Bragg, wealthy octogenarian, who for two years has been fighting his four elderly daughters for the return of \$25,000 securities left by another daughter, Mary Jane Bragg, today won his suit and thus satisfied the craving for revenge which he claims was caused by one of his daughters electing him four years ago from the home he deeded her eight years earlier.

Some years before the death of Mary Jane the securities were placed in an envelope addressed to the four sisters. In her will she failed to name her attorney legatee and administrator. A few days before his daughter died, Bragg, recognizing that the end was near, mailed the envelopes containing the securities.

It was only a few months later that Mrs. Mannstein ejected him from her home, and so aroused his ire that he decided to contest the validity of the original transfer of the securities. His contention was that the transfer was illegally made because he mailed the securities to his daughters four days before the testator died. In this contention he has just been upheld by the court.

Bragg gained fame and fortune years ago by his invention of the drop harness now in use by fire departments all over the country. He is worth a half million.

Northern California Growers Puzzled by Wiley's Ruling Fear They May Lose Holiday Trade.

[BY DIRECT WIRE TO THE TIMES.]

OROVILLE (Cal.) Aug. 28.—[Exclusive Dispatch.] That unless a more definite ruling can be obtained from Dr. Wiley relative to what constitutes a green orange, the rich holiday trade of the eastern markets may be closed to the orange growers of Northern California was the statement made today by D. O. Hills, secretary of the Butte County Citrus Association.

A serious situation has developed as a result of the indefinite character of Wiley's ruling.

Young Mrs. Shepard says she became acquainted with Shepard in Oregon, and he had sent him to Oregon to her by their daughter, Mrs. Shepard. property.

While many rumors were current

ing the day, no arrests were made.

Managers of the theater have

offered a reward of \$500 for the ap-

pearance of the person or persons

shouted "Fire" and stamped

audience.

Clouds of mourning fluttered

more than a score of houses in

Walling today, indicating a

full force of the gloom following

last night's panic in the Canons-

& Operahouse had been felt. For

most part they were white rib-

bones showing that the majority of

victims of the fire and panic were

dead.

Body had been taken from

improvised mortuaries to their

new homes and preparations were

made for the funerals. Little white

ribbons were called into action and

sixty-six caskets arrived from Pitts-

burgh.

Minnie Lemon of Lawrence-

ville, Ill., who was visiting in Can-

enburg and went with her friends

the moving-picture show, is slow-

recovering her reason at the Can-

enburg Hospital, where she was tak-

en after the panic. She was caught

in the rush to the stairs but was

injured. It is now believed her

will be fully restored.

Of the injured, Mrs. Wilmer Lane,

was taken from the bottom of

the pile of dead in the doorway after

children had been killed, will al-

most recover.

Ansonburg will be in mourning

days to come. All public and so-

functions have been abandoned,

number of dances and church festi-

vals arranged for this week having

been postponed. Even the baseball

team in the church league have been

canceled for the season.

The moment of despair was fatal

and when he attempted to get to the bottom

under the heavy mass of hu-

manity, the girl held tightly to her

feeling all the while that she

*Jams' Solves a Mystery of  
Wall Street.*

*Reid of

**Y DIRECT WIRE TO THE TIMES]**  
NEW YORK, Aug. 28.—[Exclusive Dispatch] Writing from New York to me, "Adams," who is well posted Wall street, says:  
"A man now abroad, one of the millionaires of Wall street, got into some bad publicity, and lost the credit of being a leader. He was not because he will really be easier in stock operations, but because he is a non-believer in the market when he left for Europe in the summer.  
Another railroad man, not in us, but in Wall street, and also a millionaire, last week ranked in street the profits of heavy short and—said nothing."

**THE DIFFERENCE.**  
That's the difference just now between Daniel G. Reid in Paris, and Edwin R. Hawley in New York. The was the voice of Jacob, the hand of Esau.

Men know the railroads as men of them. He has made a life

in the Interstate Commerce Commission, retired last winter to the request of the railroads for freight rates. Edwin Hawley is and took notice.

His observation and information quickly reached the concord of railroads who are now considering entirely new conditions which unmistakably to a serious curtailment in their earnings and possibly general reduction in their dividends.

**UNCOMPROMISING BEAR.**

At that moment Hawley, one of the most resourceful but secretive actors in the country, became a bit uncompromising bear. One of the large speculative interests of Wall street did not look at his last speech with any favor. He went right and put up stocks. Their titles were the Harriman Pacific Reading and United States steel, suited Hawley. The latter had planned to make his greatest play on Pacific and steel. He proposed to sell them both. He probably learned about the same decision of the Chamber of commerce before we made public never known, but there is no reason that after that ruling that operator had a clear field to bear side of the stocks he had to sell."

A Attack Them and the Democrats for Their Cross Insidious on the Tariff—Mr. Taft at Last Now Upon His Speeches to be Delivered in the West.

**A. P. NIGHT WIRE TO THE TIMES;**  
EVERLY (Mass.), Aug. 28.—So as President Taft is concerned, tariff will be the main issue of 1912 campaign. While the President will speak on many subjects on western trip, it is certain tariff will receive most of his attention.

Giving his speech to the Boston Republican club at Hamilton today, the President began today with other speeches on his veto. He obtained copies of his veto on the wool, Farmers free list cotton bills, and at once set to work to address them that he expects later, backing up those bills.

Taft is said to realize he must defend himself for having these bills, but must attack Democrats and Insurgent Republicans who put them through Congress.

The attack upon the Democrats the President can make almost there. It is understood the fight the Insurgent Republicans will confine to their own territory. President will carry the war west of the enemy's country.

A nature of attack is pretty

defined already. It will be in

ance that the insurgents who

willing to wait for its report;

the revision bills the Democrats

insurgents drew at the special session were "ill-considered and badly

and that great industries

not be put in jeopardy by such

revision, when revision, if recom-

med by the tariff board, might be

proposed. The President will

see tariff reform so far as he

is going it at the next session

It quite probable that the insur-

gents will be under fire of the

President, also on the subject of reciprocity with Canada. The President received word from western con-

gress that reciprocity is not popu-

lar in some States west of the Mis-

sissippi.

CHICAGO, Aug. 28.—[Exclusive Dispatch] Charles W. Minard, the Marquette principal who married Mrs. Bessie Belenger soon after the death of his first wife, will not be permitted to quietly resign from his official position. Instead he must face exposure of alleged associations two years ago with another widow. New charges dealing with his courtship and marriage of Mrs. Belenger seem to be formally made within a few days.

**FIFTY PETITIONS.**  
Dr. J. B. McPatrick, president of the school board, so declared this afternoon after a reporter exhibited a copy of a petition demanding Minard's removal and the restoration of John T. Goering, the principal's nemesis, to the position of school engineer.

ST. Fitzgerald, president of the association, Anius Curiae, recommended to the court the chapter be denied.

The petitioners for incorporation

had filed their petition for rechar-

ter on May 3. President McPatrick

referred the matter to the chairman of the trial committee, but the latter had not answered by June 10, the date Mrs. Minard killed herself, and the petitioners have received little consideration since then.

Superintendent Ella Flagg Young

had not yet received any reply to her

communication to Minard, and will

take no action until she has heard him.

Her authority, however, is limited to suspending Minard pending his hearing before a trial board.

"Minard will have a formal hearing

on charges that will be filed by the

board in due time," said Dr. McPat-

rick. "He will be given every chance.

If he evades a hearing by trying to re-

sign, a full expose of his conduct may

be made anyhow."

issued against the commission without

even hearing the arguments of the

Hathorn claimed the numbers were a subterfuge to get

that the ballot was not enough to

discourage contestants, but the court

#### TREASURY CLERK PAYS VISIT HERE.

#### CALLS ON AND CONFERS WITH CUSTOMS COLLECTOR.

Says That So Far as He Knows There Is No Movement on Foot to Consolidate the Offices of Los Angeles and San Diego—Likelihood of Revenue Cutter for This Port.

James L. Wilmeth, chief clerk in the Treasury Department, was in the city yesterday, and a caller at the office of Customs Collector Pendleton. Wilmeth left for San Francisco last night.

His visit here was official to the local collector. Every year an attaché of the Treasury Department comes with a view to looking into conditions at the various ports, and discussing matters of administration. He found everything in shipshape in the office of Collector Pendleton, and congratulated him upon the splendid showing.

Wilmeth, asked regarding the talk of the proposed consolidation of the Los Angeles and San Diego districts, said:

"So far as I know there is no movement on foot to consolidate these offices. The suggestion has been made that some of the inland offices be abandoned and consolidated in the interests of economy, but there has been no suggestion to abolish offices of the importance of the San Diego and Los Angeles ports."

"I visited the harbor at San Pedro and it is a magnificent sweep of water worthy of the encouragement of Congress. With the opening of the Panama Canal it will take on an added importance."

The government representative concluded with Collector Pendleton in relation to the establishment of a revenue cutter to this harbor, to operate with the object of seeing the world and making their fortune in the North. They left Fresno yesterday morning and came back to this city, where Mallison obtained a promise of employment and expected to begin work this morning.

Homesick and desiring to return to his parents, Smith was without funds, tried to beat his way on the freight train.

Mallison accompanied Smith to the railroad yards and was present when the latter tried to swing on a flat car loaded with lumber but missed his hold and went under.

It is believed that the injured boy will recover.

#### ALLEGED SPY ARRAIGNED.

German Lieutenant in British Court on Charge of Trying to Get Next to Secreta.

(BY A. F. NIGHT WIRE TO THE TIMES.)

PLYMOUTH (Eng.) Aug. 28.—Lieut. Philip Schults of the Thirteenth Hussars, stationed at Frankfort-on-the-Main, Germany, who was arrested here August 5 last, charged with espionage, was arraigned in open court today and the prosecution made known part of the government's case.

According to the prosecutor, Schults was commissioned by German authorities to obtain precise information as to how far the British government was backing up France in the Moroccan dispute. Specific questions, copies of which were found among his belongings, were to be asked by Schults regarding the naval preparations, the fortification of ports and the commissioning and reserve of ships. The secret was laid on the necessity of the information coming from the officers of the active list of the British army. A copy of the cipher employed by Schults also was found.

Charged for the prosecution asserted that the lieutenant had offered considerable sums of money to local residents to furnish him with information. The residents instead informed the authorities and in conjunction with them laid a plot to catch the alleged spy.

#### MANIA WARD PLANS PLEASE.

Design as Submitted Meets Supervisors' Approval.

Temporary Treatment There May Prevent Insanity.

Scheme Provides for Near Hundred Patients.

Plans which meet the approval of that body have been submitted to the Board of Supervisors for the contemplated psychopathic ward to be built on ground adjoining the County Hospital, for the reception and treatment of the insane and mentally unbalanced.

The plans have been presented by Dr. C. H. Whitman, chairman of the committee appointed by the board to make inquiries and arrange the design. The building proposed is to be of brick, with stone trimmings. It will be 22x142 feet, that stories in height and will be built around an open court, separating the wings for the sexes. It will contain seventy-six single wards, four 16x12 feet; two eight-bed wards, and four private rooms, besides rooms for help and accommodations for Sheriff and matron.

A large portion of the first floor will be devoted to general work, including waiting rooms for men and women, judge's chambers, court room, and general hydrotherapeutic treatment rooms. The equipment for convenient and rapid handling of patients and for auxiliary treatment has been made as complete as possible in the rear of the first floor, two wings, duplicates, for men and women are located. The second floor is divided into rooms for patients and help. On the third floor is a small ward for a girl, a room for a man and a room for a woman. No special provision is made for a children's ward, which is greatly needed, but undoubtedly the third floor accommodations can be adapted for this purpose.

This building is to be erected on a tract of about four acres lying in the rear of the hospital of the present hospital. It will thus be sufficiently removed from the other wards to protect the patients from annoyance or disturbance from the mentally afflicted. This ward is planned to meet the needs of a suitable detention hospital for acute and chronic cases.

It is hoped that it may also do a valuable work in giving temporary treatment and relief to those who may come to it voluntarily and thus save many from insanity. In the face of the present rapid increase of the number of patients of accommodation for properly caring for the mentally unbalanced, prevention of dementia is one of the most important functions of such an institution.

The completion of this new psychiatric hospital will provide proper facilities for the examination and temporary treatment of the insane, under the care of trained attendants and specialists, will mark an important advance in the care of the most pitiable wards of the public institutions.

#### THE POLITICAL WATCHTOWER.

The visit of Senator Clapp of Minnesota to California this week is the start of the Lissner-Johnson programme to stir up the Lincoln-Roosevelt organization to action for the nomination of La Follette for the Presidency. This programme includes handing Johnson the Vice-Presidential nomination. But in order to make this possible California must be seized by the Republicans, and this has turned over to the Wisconsin radical, though it is overwhelming for the renomination of President Taft. Clapp's tour for the I.R.R. fad contained in the constitutional amendments is but a disguise to the real political purpose of disuster and Johnson.

The culmination of the tour is the direct legislation conference. Senator Clapp is to begin his La Follette campaign. Perhaps his success means the gratification of his ambition to become national chairman, in case the radicals control the Republican convention.

Clapp is avowedly an anti-Taft La Follette politician. In what is different Senator Clapp is not also from Minnesota and is, like Minnesota, for Taft. Doubtless his tour is to test the sentiment for La Follette but it will hardly do so as the meetings are designed for the radicals and not for loyal Republicans.

Of course Lissner will be able to frame up his plans for the national convention through his conference with Senator Clapp. He is also from Minnesota and is, like Minnesota, for Taft. Doubtless his tour is to test the sentiment for La Follette but it will hardly do so as the meetings are designed for the radicals and not for loyal Republicans.

Charles M. McKenzie, a real estate broker of Highland Park, has taken out petitions for the Council. McKenzie is a member of the Executive Committee of the State Republican Committee and is regarded as pretty close to the Lissner throne. Some more of the "big timber" E. T. Earl is demanding support.

Up to yesterday, but one candidate for the seven places on the school board had taken out a petition. That one was Ben Rosenblat. Yesterday petitions were taken out in the interest of Mrs. L. Craig, a well known clubwoman, and J. H. Bean, a building contractor. It is expected that

the petitions for the entire present membership of the Board of Education will be taken out soon and signed for filing next month after the lists are opened.

The new "Industrial accident board" which was the result of the legislation by the last Legislature will hold its first meeting in San Francisco next Tuesday—at the time, conveniently, when Lissner is to hold his "conference." For its uses (the board not the conference) \$50,000 has been appropriated which it is to be used for salaries, expenses (they get \$2,669 each) and in employing assistance. In the creation of this board Lissner was able to land Willis I. Morrison of Pasadena as a member. Morrison was secretary of the Los Angeles Republican Committee last fall. I am told that J. T. McBean, who was an efficient assistant to Chief Clerk Mallory of the Assembly last session, though a Lissner follower, is to be a probable choice for secretary, or some other position.

But the "warmed" intimation is that Senator Louis H. Rosenberg, author of the law, is to move to Santa Barbara and make San Francisco his future home and that he will be appointed counsel of the board. If this is true it means a chance for new blood in the Santa Barbara Senatorial district next year. Incidentally this board is paying off a lot of Lissner-Johnson political debts.

# Cities and Towns of Los Angeles County.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

Pasadena.

## REVENUES ARE INCREASED.

**Town City Income Will Surpass All Records.**

**Arroyo Seco Bridge Will Be Discussed Today.**

**New Farm Manager Will Also Be Chosen.**

**News of The Times, 12 S. Fair Oaks Ave.] PASADENA, Aug. 29.—Convincing figures are contained in the annual report of City Auditor Kellogg, which is just been completed and will be submitted to the City Council today. Some of them are:**

**Estimated, revenue for the coming year, \$105,800,66; the largest item is the ever-increasing revenue from direct taxes, \$41,746; and from personal taxes, \$13,649; estimated revenue from farm, \$4844; piggy, \$3018; dog tax, \$1628; and license fees, \$6188, or assessed valuation of property is \$112,005.**

**Statistics from the City Health Department show that in the last year there were twenty deaths due to senility and thirteen caused by violence. Ninety-four out of a total of 445 were used by tuberculosis.**

**The total value of property owned by the city is placed at \$1,694,740.**

**BRIDGE QUESTION UP.**

**The proposed new bridge, to be built across the Arroyo Seco on Colorado street, will occupy the attention of members of the City Council today. Mayor Thum and City Attorney are in the office of the engineer to confer with engineers there, and will make reports this morning. While Mayor Thum has not said what engineer he will recommend for appointment, the firm of Waddell and Parsons has been mentioned. It is the plan of the Mayor and members of the Council definitely to decide upon an engineer today and make an appointment in order that the work may be got under way. The Board of Education of South Pasadena and this city are greatly interested in a proposed bridge, as it is believed will have a direct result upon business.**

**The Council also today is to appoint a successor to S. O. McGrew, president of the City Farm and Robert Shull, who is connected with the Model grocery store, appointed yesterday to be the most likely candidate for the place. He came to Pasadena a year ago and had practical experience in farming. His name has been favorably considered by the City Farm Committee and former Mayor Thomas Earley chairman.**

**McGrew is to be appointed to another city office.**

**One of the chief problems with which the new manager of the Farm will have to contend will be the disposal of the surplus water that comes from the septic plant. In the latter much more water is received on the tank than is needed on the plant.**

**TAKE PRECAUTION.**

**A committee of physicians, of which Dr. George E. Abbott is chairman, is now examining the plans for the proposed new Pasadena High School and will report upon the perfection of the ventilation and other hygienic features. The Board of Education is determined not to break ground for the new school until it is certain that the plans are not faulty in any way.**

**A letter received yesterday by President W. H. Ogden of the Board of Education, who several weeks ago was appointed Superintendent of Schools of the city, will leave Keene, N. H., this city September 1.**

**Many improvements are to be made in the school system of the city. The Board of Education has given the new superintendent full authority to take such steps as he deems best for the city school system.**

**WILL TEACH.**

**George V. Baer, oldest son of Dr. Willis Baer, President of the Occidental College, leaves in a few days for the East, where he will become a member of the faculty of the Hill school for Boys at Pottstown, Pa. He graduated from Occidental College a year.**

**Young Baer intended to go into a lumber business and this summer went to one of the Sugar Pine Lumber Companies, camped for a time in the East, where he will become a member of the faculty of the Hill school for Boys at Pottstown, Pa. He graduated from Occidental College a year.**

**GIVES UP LICENSE.**

**There are no women chaperons in Pasadena now. Miss Venice A. Hess, who held the distinction of being the only woman in the city, yesterday surrendered her license to the Police Commission. Today she will be missed from her stand at No. 16 North Raymond avenue. Instead W. J. Sandal will occupy the place.**

**Recently the young woman asked permission to transfer her license to another, who was told that she did not do so. Yesterday she accomplished her purpose, although in a different way.**

**CITY BRIEFS.**

**Prof. J. C. Kaptyn, of Groningen, Holland, one of the great astronomers of the world, is now at the observatory on Mt. Wilson where he is making observations which will probably prove to be of great importance. He came to Pasadena several weeks ago and hurriedly left the mountain when he has been riding his bicycle after some time to get ashore was submerged by the powerful breakers. Life Guard Rix dived into the deep and brought the man ashore. The rescue was one of the most heroic and spectacular ever witnessed on this beach. Bolestad was restored to consciousness only after long effort on the part of physicians called to preserve the flickering flame of life.**

**half an hour he sat in his swing hung from the top of the pole, 100 feet above the street and applied white paint.**

**Pictures framed at Wadsworth's Hotel Vista del Arroyo, Pasadena.**

**ANNEXATION IS DISCUSSED.**

**If Los Angeles Will Make Answer to a Few Questions, She May Win Otherwise Failure.**

**SOUTH PASADENA, Aug. 28.—Frank A. Catterin, chairman of the recent mass meeting held to discuss the question of annexations, has appointed the following committee to confer with the proper authorities in Los Angeles and secure the answers to the questions in reference to the status of South Pasadena in the event of annexation becoming a reality that were proposed by C. D. Daggett, A. A. Jackson, R. W. Prudham, John E. Dublin, W. W. Fogg and Seward A. Symonds.**

**NEWS BRIEFS.**

**E. E. Barnes of No. 406 Monterey Road, who has been missing for about three months, returned to his home late Friday evening. He is not well enough to answer any questions as to his whereabouts during his absence and has to be kept very quiet.**

**The Ong building, at the corner of Mission and Fair Oaks, is rapidly nearing completion. Some of the new fixtures will be ready for occupancy and Washburn Brothers will move in to their new quarters on Tuesday. The fixtures for the new bank are being installed.**

**Fish running fine at Coronado.**

**SANTA MONICA.**

## ANGELENO GOES TO THE FRONT.

### SAVES VETERAN WHO TOPPLES FROM THE PIER.

**Aged Inmate of Soldiers' Home in an Excess of Zeal Takes Header Into the Pacific and Is Brought Around With Difficulty by His Rescuers.**

**SANTA MONICA, Aug. 25.—Capt. Hill of Los Angeles Fire Engine Company No. 2 figured as one of the principals shortly before noon today in a thrilling rescue at Port Los Angeles.**

**W. G. Warry, a veteran from the Soldiers' Home, was fishing from the mammoth wharf, having taken his station at one of the boat landings not far from the end of the pier and at a point where there is ample depth of water to float a battleship. Suddenly he was observed to pitch head foremost from the landing into the ocean. He had lost his balance while engaged in manipulating his rod and line. At once there was a cry of "man overboard" and Hill was among the first to respond. Russel, a former marine, a small boat and weight the rescue, but it was fully ten minutes before the drowning man could be grappled and hauled into the boat and elevated onto the pier.**

**The work of resuscitation was accom- plished by means of strong heart stimulants and expectorants as were at hand.**

**An ambulance was called and by the time it arrived the half-drowned man was well on the way toward recovery and was taken to the hospital.**

**Yesterday Mr. and Mrs. Michael Baldwin celebrated the fortieth anniversary of their marriage, inviting a number of friends to spend the day with them at their second home on Marine and Third streets. The marriage was celebrated at Etna Green, Ind., August 27, 1871, the bride having been Elizabeth Lee and the couple since that time. But he was a man of many interests, having before his wedding come to the State in the spring of 1856.**

**In company with 150 men Mr. Baldwin joined the Parker H. French expedition in New York City for the fall of 1849, sailing from New York to Havana. From Havana the party continued on to New Orleans, thence to Galveston, Texas. From Galveston they took a steamer and sailed to Chiapas and Durango to Mazatlan.**

**There they took a steamer and sailed to San Francisco, having been eight months on the way.**

**When they landed in San Francisco Mr. Baldwin had \$20 in his pocket. He has passed the eighty-fifth milestone on his earthly career and after sixty-one years spent in the Golden State is still pleased to call it "home."**

**EX-PRISONER OF WAR.**

**H. G. W. Young, president of the War Prisoners' Association, should be successful in carrying out a plan he has evolved, this will be the scene next summer of an encampment of all Grand Army of the Republic members who spent any time in Confederate prisons and attend the annual reunion of 1912. This is to be held in Los Angeles and the plan which Young fathered today is that of holding the camp of war prisoners simultaneously.**

**He thinks such a gathering would provide interesting features and viewpoints, as it would doubt bring together a number of men who would meet for the first time since having been liberated from prison during the Civil War.**

**A regular military camp would be established in one of the parks where the one-time prisoners could hold their reunion and campfires ad-**

**ad.**

**GEORGE FLORES, a Mexican youth who attempted Sunday afternoon to woo a fair countrywoman with the handle of a horse-whip, was sentenced to jail for sixty days yesterday. He took Miss Frances Corrillo for a ride Sunday afternoon and attempted to kiss her. She objected and he took the whip and struck her several times on the head. Motorcycle officer Reis of the East Side Police Station, arrested Flores and lodged him in jail.**

**GEORGE FLORES.**

**LONG BEACH.**

**LONG BEACH, Aug. 28.—John Bolestad was pulled to safety yesterday notwithstanding his efforts to get ashore was submerged by the powerful breakers. Life Guard Rix dived into the deep and brought the man ashore.**

**The rescue was one of the most heroic and spectacular ever witnessed on this beach. Bolestad was restored to consciousness only after long effort on the part of physicians called to pre-**

**serve the flickering flame of life.**

**NEWS BRIEFS.**

**George W. Hughes has returned from a New York trip and while there visited the offices of the Standard Banking Company and was assured by the officials that the company intended to aid W. L. Porterfield in his building plans for the construction of the nine-story hotel on the Westminster property, along the west side of the street.**

**A meeting of all the local civic organizations was held here this morning and committees appointed to begin preliminary plans for securing a Long Beach day in honor of the Shriners when they meet in Los Angeles next May. Though the convention is many months distant, it is felt that much time cannot be devoted to a proper preparation for the event.**

### ANNEXATION SPIRIT ALIVE.

**Glendale Looks With Covetous Eyes on Tropicana and Yet Hopes to Gobble It Up.**

**GLENDALE, Aug. 28.—A movement has been started in the districts to the south and west of this city which may ultimately result in annexing that territory to the city of Glendale. Since the election several months ago when the annexation was defeated by a narrow margin, the annexation feeling has been merely simmering, but for the past few weeks there have been evidences of this feeling again reaching a boiling point.**

**The residents of this city have nothing whatever to do with the reversion of this movement. Notwithstanding this, it is generally known that if any outside territory adjacent to Glendale wishes to be annexed to this city the local officials and residents would welcome**

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

**BURNED IN GAS EXPLOSION.**

L. B. Carpenter of Santa Ana, though badly scorched, calls for help over telephone.

SANTA ANA, Aug. 28.—Though terribly burned in a gas explosion, L. B. Carpenter this morning displayed remarkable nerve and fortitude. He is head operator at the Southern Counties Gas Company plant. Some other employee had left a valve open, and when Carpenter started the machinery to repair it this morning he was met with a burst of flames that burned his face, neck, right arm, shoulder and side and left arm.

Carpenter quickly pulled off his burning clothing, then walked to the telephone and called up his foreman and told him to send another man to take his place. Carpenter then got on his motor cycle and rode to his home at No. 1603 Flower street. After examining the burns, a physician pronounced them very bad and ordered the patient to a hospital. The burns are not fatal.

**MULE-FOOTED HOG.**

A Los Angeles man named Cady was here today looking for a farm upon which he had been told mule-footed hogs were being raised. None here could help him locate the farm. The man stated that while in Los Angeles he was approached by a man named Yancey, who offered to sell him a mule-footed hog for \$100. Yancey operated differently from most stock-sellers. He did not offer to sell shares or a corporation. He offered to sell a live hog with feet like a mule's hoofs or not the long enough kick and bres [sic] of a mule hoof, my suggestions not stated. Yancey's plan was to keep the hogs all on one farm for five years, and the man who bought a \$100 mule-footed hog should be entitled to all its offspring. Yancey said he wanted to keep all knowledge of the hog from the public, but he would gladly sell a hog for \$100.

**JAPS ARE FINED.**

Six Japanese employed by Louis Harris of San Pedro today pleaded guilty to violating the State law regulating the taking of abalone, and paid fines ranging from \$25. The Japs were captured at La Jolla Beach by Deputy Fish Commissioner W. K. Robinson. The Japs were equipped with diving outfit.

**IN HOSPITAL.**

In a drunken row at Delhi yesterday Frank Escota was struck over the head with a single-tree by Feliciano Ruiz, after Escota had cut Ruiz on the nose with a knife. Escota got the worst of the encounter. Though no bones are broken he is in the hospital for repairs.

**HUNT COYOTES.**

William and Elmer Cubbon and Bert Fuller have had sport the last two Sundays hunting coyotes in the foothills. They take off the muffer of their automobile, and find that coyotes are easily frightened by the noise. Yesterday the trio got two coyotes with their rifles and the Sunday previous they got two.

**Trout fishing and deer hunting are fine at Wheeler's Springs.**

**KILLED BY AVALANCHE.**

**Laborer Employed to Watch Members of Forest Blaze Meets Sudden Death in Hills.**

BANNING, Aug. 28.—C. B. Hyde, a laborer employed to watch the burning logs left in the wake of the recent forest fire, was killed today by an avalanche. He made an effort to escape the approaching mass but was struck by a huge boulder and received injuries from which he died a few hours later.

**NEWPORT BEACH.**

**NEWPORT BEACH, Aug. 28.—A raid upon an alleged gambling-joint was successfully carried through last night by City Marshal Hermes, Deputy Gilman and Constable Jackson. Nine men were arrested and will be tried on Wednesday.**

The plot was disclosed at the Pacific Hotel. Strands of barbed wire were stretched over the light roof to prevent entrance by officers from that direction. The officers ran at the door, burst it open with their shoulders, and found the men at a table with money, chips and cards.

John Landis is accused of being proprietor of the place. G. G. Shoemaker was his doorman. Charles Nagel, known as French Charlie, a professional gambler from Los Angeles, sat in the game.

The others arrested were local fishermen, C. S. Hemstreet, Chet Bowes, Harvey Ladd, John Hewitt, Peter O'Sullivan and George Marsh.

**EL SINORE.**

EL SINORE, Aug. 28.—Herbert Haughwout, the nine-year-old grandson of Mrs. L. L. Haughwout, blew off two fingers, to the second joint, and the thumb entirely, today by setting a match to a loaded cartridge, which exploded.

O. W. Ambury went to Pomona this morning to attend the funeral of his mother, Mrs. R. C. Ambury.

Mrs. J. K. Schanck returned today from Pasadena, and was accompanied home by her little granddaughter, Isabel Schanck.

**LOMPOC DRY.**

SANTA BARBARA, Aug. 28.—Exclusive Dispatch. Lompoc, a small city in northern Santa Barbara agricultural district declared today against the licensed saloon. The vote was 200 to 165 and 165 for. Three other towns in the same district have voted dry this month.

**Family Affair.**

When I arrived I found a note telling me my brother did not have the courage to face me, so quick inventory showed I was out \$2400. I traced him by his baggage checks to San Diego and came here after him.

I registered under another name and started out to find him. I succeeded this afternoon and got one punch at him. That punch represents \$2400. I reported to the police and wanted to know what I could do. I find that I must go to Los Angeles where the shortage occurred, and have a warrant issued.

Gottschall left for the North today. His brother disappeared.

### NEWS IN BRIEF.

**Emporia Pioneer Dies Here.**

Isiah Jones, a pioneer resident of Emporia, died at the Hospital of the Good Samaritan last night, following two operations for diabetic gangrene. Accompanied by his daughter, Mrs. Rose M. Hibbard, Jones came here June 1 in the hope of benefiting his health. Later he was joined by a second daughter, Mrs. Robert T. Lester, Claremont, Okla., both of whom were at the death bed. The body will be taken to Emporia tomorrow.

Jones was 77 years old, a native of Wales, and a resident of Emporia since 1857. His wife died three years ago. Besides Mrs. Hibbard and Mrs. Leslie, the living children are J. E. Jones, Maurine Jones and Mrs. David H. Stone, Emporia, and Mrs. R. S. Leggett, Claremont, Okla.

### MASHER CAMPAIGN FRUITFUL.

**Five More Arrests Last Night of Men Charged With Having Accosted Women Without Excuse.**

The crusade against maschers was given another impetus last night with the aid of Fay Evans, the young woman detective enlisted to aid the officers in catching offenders who have been in the habit of accosting unprotected women on the streets. Five alleged offenders were gathered in by Plainclothes Officers Marks and Herbst.

All of the prisoners were accused of having made advances to the woman without the slightest evidence of reciprocation and one, at least, who gave his name as P. S. Brownley, admitted that he was "in bad and sore need" of a woman. The other members of the crew gave their names as Tom Mills, M. S. Yerberg, John Frank and J. G. Chaltry, all of whom were well dressed and of prosperous appearance.

None of the prisoners had sufficient money to obtain release on bail and their confessions made it plain that friends could be notified of their predicament. Acting on orders issued by Chief Sebastian, the plainclothes officers will continue to arrest every man caught speaking to a woman on the streets without first having gone through the formality of an introduction.

Shortly before midnight a well-dressed elderly woman complained at police headquarters that she had been accosted every night after leaving the Optic Theater, where she is employed.

"If they will try to mash an old woman like me they certainly will speak to the younger ones," she said. "I was strong enough I would hold the rascals until the police arrived, but I think that something ought to be done to protect unescorted women."

An officer was detailed to follow the complainant, but no one molested her again last night.

### SWALLOWS PEACH STONE.

**Obstruction Lodged in Man's Throat Disappears and Doctors Think It Is in Stomach.**

An unusual operation was performed at the Receiving Hospital last night in an effort to remove a peach stone from the throat of Joseph Goetz, 17 years old, an apprentice living at No. 1215 East Twenty-first street. He swallowed it while walking near Compton avenue and Twenty-ninth streets at 1 o'clock in the afternoon.

When he was taken to the hospital the stone was plainly visible but resisted the efforts of the surgeons to remove it. Dr. W. P. Millspaugh and Dr. George P. McCoy were summoned in consultation and the patient was etherized with the intention of forcing the foreign body from the thorax by the use of especially designed instruments.

While the young man was on the table the obstruction slowly disappeared from view and finally lodged in the stomach, the surgeons believe, and it was decided to take an X-ray picture of its location before attempting another operation.

Dr. Millspaugh said last night that the young man was in a serious condition and that it might prove necessary to use the knife to effect the removal of the obstruction although he was hopeful that it would pass away without other inconvenience.

Goetz was placed in bed to allow him time to recover from the effects of the anaesthesia after which another attempt will be made today to remove the stone.

### DIES GOING TO HOSPITAL.

**Laborer Found by Patrolman on First-street Viaduct in Dying Condition—Wound on Back of Head.**

Jack Burke, employed by W. P. Sims, a teaming contractor, was found on the First-street viaduct in a dying condition late yesterday afternoon by Patrolman Frost. He died while being removed to the Receiving Hospital in the police ambulance.

W. P. Sims found Burke was sitting on the viaduct. There was a wound in the back of his head, which the police believe was caused by his falling. He roomed at No. 148 North Utah street.

G. G. Speer of No. 610 Frost Street was on a passing car at the time Burke was found and volunteered his services. The man failed to respond to the stimulants given him.

### AGENT WITHOUT CONSENT.

**Man Begins Operations as Real Estate Broker by Renting House Without Authority—Lands in Jail.**

Without waiting to acquire a legitimate renting list, Raymond Jung, whose antecedents are unknown, began operations as a real estate broker yesterday, the police assert, by leasing a house belonging to Mrs. S. Davis at No. 1516 San Fernando street without first obtaining the consent of the owner.

The house in question has been vacant for some time and when Aljo Jung, 21, son of the lessee, was shown with the apparent view of renting it, Jung is alleged to have introduced himself as the agent of the premises and a bargain promptly was made whereby Alva was to become the future tenant.

Jung's suggestion the tenant paid \$9 on account and was told to take possession at once. During the day the new tenant wanted the keys and looked for the agent but was unable to locate him. In this extremity, Alva called on the owner at her home, No. 1516 San Fernando street, and was instantly made wise.

The case was reported to Detectives Rico and Talamantes and later the "agent" was found enjoying himself, supposedly with the commission made on the deal, and was locked up at the Central Station.

### BURY SIMIAN TODAY.

**Funeral for Baby Monkey to Be Held This Afternoon at a Local Park Resort—Animals as Mourners.**

Koko, the infant son of Sapho and Pedro, prize monkeys in Luna Park, will be buried in a tiny grave under the big, spreading tree near the entrance to the park this afternoon. Only animals and funeral keepers will attend the funeral of mourners.

Someday somebody threw a match into the cage where Koko and his mother were. On Sunday morning Keeper Hendee noticed Koko was sick. At noon the baby was found dead. The mother made a great demonstration over the lifeless form.

### CALLS FOR SISTER.

The Chief of Police received a telegram yesterday from W. R. Harr of Portland, Oregon, asking that his sister, Louise Harr, be located and seen to her brother in the northern city. An investigation revealed that the young woman attempted suicide last Friday night at the Walker Hotel by swallowing a quantity of mercury.

Alvin, a member of the staff of the Receiving Hospital as a nurse, on the receipt of funds to pay her care she will accept her brother's invitation to live with him until other arrangements can be made.

### HITS AND RUNS AWAY.

Leo Muropy, a messenger boy living at No. 1516 East Fifth street, was run over at an automobile while being driven by an unknown man. The lad was taken to the Receiving Hospital where Dr. Wright dressed a small wound on the back of the head. The driver of the machine increased his speed and escaped without waiting to see how much the boy was injured.

### THESE THEFT TO BOYS.

Charged with being implicated in the theft of a purse containing \$15 and a quantity of Jewelry Roy Northrup and Curtis Taylor were arrested last night by Detective Browning before they had a chance to leave the building where the thief had been committed. The complaining witness said that the two young men were present when the money was taken. Taylor has a juvenile record for larceny, but his partner is unknown to the police.

## HOT TRAIL OF SLAYER FOUND IN DENSE GROVE.

**Members of Sheriff's Posse Return to Town Tired, Bedraggled and Hungry—Pursuit of Fugitive Will Be Renewed Vigorously Today—Wife Makes Statement in Which She Says He Treated Her Cruelly.**

**E**RACELIA DE TORRA, the old Mexican woodchopper who slew Pasquell Sooner in the kitchen of his two-roomed shack at Watts Thursday evening by plugging four 28-caliber bullets into his head and body, has succeeded in eluding a score of deputy sheriffs and constables. These officers have scoured 300 miles of territory in Southern Cal-

ifornia, snugly quartered behind the thick steel bars in Sheriff Hammel's brick castle on Temple street.

The Mexican is known as a "murderer" and has a record of five murders to his discredit according to county officers of the law. He is heavily armed. He is said to have plenty of ammunition and to be carrying the same gun which it is alleged he killed Sooner. He is said

**Two Women Alleged Patrolman Tried to Play the Masher, and the Chief Summarily Discharges Him.**

"No police officer can try to make women believe when jilted behind his back," declared Chief Sebastian yesterday, and after making the statement, he formally discharged Patrolman Rosco Belcher from the department. Belcher was charged by Mrs. Rose Carr and Mrs. Margaretta Moss, both living on No. 2729 North Broadway, with having attempted to hug and kiss them.

The women asserted that Belcher went to their house a short time ago and ordered them to cut the weeds in their yard. They refused, biling around and making a noise, they said he put his arms around them and tried to pacify them with hugs and kisses.

W. W. Fletcher, another police officer, was temporarily suspended pending an investigation of his conduct at a fire at Romeo and Twenty-third streets, Saturday night. The Chief was told that Fletcher neglected his duty and made many criticisms of the firemen.

### DE LARA JAILED AGAIN.

**Former Editor of Red Paper in Los Angeles Reported to Have Assailed the President.**

An Associated Press Dispatch from El Paso says L. Gutierrez de Lara, former editor of a socialist paper in Los Angeles and more recently a captain in Francisco I. Madero's irregular army, has been jailed in Torreon, Mex., on charges of assailing President Taft, King Alfonso of Spain and Emperor William of Germany in recent public speeches. The complaint was signed by local officials.

**City Collector Taggart Financial Wreck.**

**Court Will Probably Salary for Debt.**

**Supplementary Proceed to Satisfy Judgment.**

Clarence M. Taggart, City Tax Collector, is rich in worthless stock and debts, but his actual assets are far below nil. He admitted facts and more yesterday when he was taken before Judge Finlays supplementary proceedings by attorney Freeman, because he did not satisfy a judgment for \$14 which was given several months ago.

In a speech at Torreon, De Lara, speaking of President Taft, is reported to have said: "He is out for cash and cares not for oppressing the poor as long as he can favor his rich friends."

Under the Diaz regime, De Lara fled from Mexico, where he had been an attorney. He was arrested later in Los Angeles, but his extradition was denied.

**SPEAKING OF JOBS.**  
It seems to be the open season with the Diaz family. The President of Nicaragua of that name has quit his job. The post President of any of the Central American Republics appears to be one grand, sweet one—if you don't care what you say.**CONVERSATION.**  
An effort to make talk is not worth while, but an exchange of ideas between thinking persons brings into expression some of the highest thoughts of which both are capable of evolving. It is said that Madame de Staél cared for nothing but conversation and insisted that it existed only in France. That time is now so long past that many persons in America have learned talk almost pleasantly, if the provocation is sufficient. Some of them might even be equal to that emergency of Madame de Maintenon, whose servant once whispered in her ear at dinner, "If you please, madame, one needs more. There is no roast today."**GREAT FOUNDATION.**  
Following the announcement that the Southern Pacific Depot site in Los Angeles had been located as a placer gold mining claim and just when we had anticipated the request of somebody to move the new Federal building from over his diamond bedrock at a Long Beach brickyard have recovered the remains of a mastodon and the mammoth skeleton seems to be in an excellent state of preservation. For many years Long Beach has experienced phenomenal growth. From a hamlet of little consequence it has, by leaps and bounds, become a city of magnitude. In spite of all its resources its rapid growth has never been fully explained until now. The fact that it was for its foundation the burial ground of mastodons is certainly a sufficient explanation.**FOUND THE WORLD.**  
Somebody once said to Whistler, at a party given to the artist: "Mr. Whistler, as do Mr. Smith," and Whistler innocently required, "What of it?" A man with a hypothesized name, to conceal the fact that he ought to be called Smith, has succeeded in completing a tour around the world in thirteen days, with some hours, minutes and four-fifths of a second thrown in for good measure. We have no doubt that the gentleman succeeded in "going some," but what of it? Not long ago a distinguished party of Japanese, who were visiting in New York, were transferred from one subway train to another, when both trains were going in the same direction. "Why did we do that?" one of the visitors inquired of an American friend. "Why," explained the American, simply, "we gained two minutes by the transfer." "Yes, yes," replied the Japanese, "we gained two minutes, but what for?"**BREACH OF PROMISE.**  
Marriage is a state which the unmarried contemplate with much curiosity and some pleasure. The finest asset for any kind of marriage is a choice assortment of illusions. Life could hold no greater punishment than a marriage between persons who have lost all of their dreams. A person may have no education and little intelligence and yet make a fairly pleasant and successful pilgrimage through this vale of tears; one may even be devoid of a sense of humor and yet reach some sort of maturity through the great charity of their friends; but the man or the woman without a few delicate illusions with regard to matrimony has absolutely no place in the calendar of romance. At present a prominent young politician in the State of Washington is being sued for \$100,000 breach of promise by a disappointed lady. Since no sort of husband could possibly be worth \$100,000 to a charming woman in a State where so many good husbands grow upon every bush, it can only be concluded that the lady has lost her illusions and is suing for what she thinks they were worth to her.**REFERS BY AEROPLANE.**  
The British general post office is about to institute a regular aerial postal service between London and Windsor for a limited period as an experiment.

A number of men interested in navigation are responsible for the scheme, having a view to demonstrating the utility of the aeroplane for practical purposes. When the Postmaster-General was approached on the subject he not only gave his assent promptly, but agreed to co-operate in every way.

The aerodrome at Hendon, recently erected in connection with the \$50,000 Circuit of Great Britain Aviation Contest, and Windsor Park have been selected as the points to be connected with the service and arrangements are being made with a number of large firms to affix special aerial letter boxes on their establishments in which letters intended for aerial service must be posted.

Daily clearances will be made and dispatched to a central clearinghouse, from whence the letters will be conveyed in sealed bags by motor van to Hendon. At Hendon they pass under the control of the aeroplane staff and the bags will be securely affixed to the machines. The airmen cover the distance, twenty-one miles, in less than half an hour, all told. At Windsor the letters will be conveyed by road to the town postoffice, after which delivery will take the usual course.

Special postcards and envelopes will be issued for this trial service and the stamp will be obliterated in a special way—doubtless for the benefit of the stamp collectors. They will likewise have a special price for a short time, and all the money over actual expenses is to go to aviation charities.

Whatever else he is about, John Bull is certainly the most enterprising and efficient of all the nations in developing his postal system.

**LEGALIZED TERRORISM.**

At the risk of repeated argument it must be persistently impressed upon the voters of California that the provision for the recall of the judiciary ought not to be incorporated into the statutes of the State next October. If the decisions of judges are to be submitted for popular review, through the recall, why not also the verdicts of juries, properly asks the Syracuse (N. Y.) Herald. Like judges, juries are human beings, and as such are not infallible. Jurors sometimes err in passing on questions of fact, as judges sometimes err in passing on questions of law. Now it is an unanswerable proposition that the common people, the voters, are far better qualified to decide questions of fact than they are questions of law. If then, we are, by the recall of judges, to give the people a direct share in the administration of justice through the ballot, would it not be more sensible to begin by making every verdict of a jury in an important criminal case reviewable by the voters, on a petition of 25 per cent of their number in each community?

That suggestion seems dangerous and absurd, does it not? And yet it is not more dangerous, and it is far less absurd, than the proposition to punish a judge by petition for recall because he has rendered a decision which a minority of lay voters do not approve. In a very strong sense the recall petition would humiliate and disgrace the judge in the minds of many, just as a grand jury indictment, temporarily at least, humiliates and disgraces the indicted. Many of the people who would hear of the recall petition or the indictment would not hear of the vindication or the re-election after recall, or of the acquittal after trial.

The principle of the popular recall of judges is no more defensible than that of Lynch law—both are execution before legal conviction—both are punishment before legal proof of crime.

The recall of judges would give us a government of passions and impulses. Practically the mob government of the French Revolution. An untrammeled judiciary is the bulwark of our liberties. To dethrone it is to enthroned tumult, lawlessness and anarchy, and thus hasten the decadence of the greatest and freest republic the world ever saw, the Republic of the United States of America.

Senator Owen, the Oklahoma Populist, speaking in favor of the election and recall of Federal judges, really argued against his own proposition when he said:

"The moment the recall went into effect the courts would promptly discontinue their unauthorized, unconstitutional and grossly improper conduct of declaring an act of Congress unconstitutional."

It that surprising statement means anything in plain English it means that the intent of himself and like-minded associates is to intimidate the judges of the Federal courts in the performance of their duty by the menace of a mob empowered to vote them out of office if they might do anything contrary to desires originating in prejudice and passion.

If voters of California, the judges of California are to be made to hold office only subject to recall by a minority of only one-fourth, will not that also be intimidation?

Senator Owen argues that "the recall of judges is a more benign remedy than impeachment," losing sight apparently of the fact that under impeachment the attacked judge does not suffer until he is tried and found guilty, while under the recall he is made to suffer first (as in Lynch law) and is tried afterwards.

**THE EXTRA SESSION.**

The net result of the four months' session of Congress which has just adjourned is the reciprocity treaty, subject to ratification by Canada, the international peace pact, the admission of Arizona, and the bill to limit the expenses of Senatorial candidates to \$10,000 and of Congressional candidates to \$5000. The tariff question is left in the hands of the Scientific Revision Board, and all other questions are postponed until December.

If the extra session has not accomplished much, it has not cost the country much. All the Senators and Congressmen and most of the clerks and attaches are on yearly salaries. The weather has been warm and the coal bill consequently small, and night sessions have been infrequent so that light has cost but little. The principal item of expenditure has been for printing 115 numbers of the Congressional Record, containing about 4500 pages, wherein are embodied the speeches which were made vive voce, and the essays which were printed, without being spoken, of Senators and Congressmen.

The expenses of the session were reduced by the Committee on Public Expenditures weeding the pay roll of a number of superfluous servants of Uncle Sam. It is a matter of rejoicing that, among the useless officials who were retained, was an old colored man whose claim upon the treasury as an appreciative and grateful country was that both "befor" and during the "wah" he acted as bootblack for Jefferson Davis. This endeared him to the southern heart, and Joe Bailey's plea not to perpetuate memory of strife by unclutching his forty year's grip upon the Senate contingent fund was heeded by most of the Senators from northern States. A few there were, however, who followed the lead of the cynical Senator Hayburn of Idaho, who, according to a Washington correspondent of a western newspaper, made a cloakroom remark asking why the Senate did not vote to pension the white orderly who used to compound whisky cocktails for Gen. Grant.

**CLAPP OF MINNESOTA.**

Senator Clapp of Minnesota, whose Quixotic spirit of crusading has brought him to California to break a lance against the windmills of capitalism, opened his campaign in Los Angeles last night. He faced a crowded audience which greeted him warmly and applauded him courteously, as is the custom of Angelinos when addressed by distinguished strangers. But very few, if any, of those present who were not already committed to the fate of populism were convinced by his speech of the desirability of placing the initiative, the referendum and the recall in the Constitution of California.

The Senator generalized liberally, but specialized grudgingly. He was long on the eternal principles, but short on the immediate advantages of the scheme of government he advocated. He did not, for instance, tell his audience that it would be in the power of a majority of the voters of the State to enact an initiative law for the

In other words, Secretary Jordan was advised to take the certificate of the legislative officers and of Gov. Johnson of what ought to have been done as sufficient proof that it was done.

Secretary Jordan, being thus directed by the Attorney-General and the Governor, complied with the direction and ordered the amendments to be printed upon the ballot.

establishment of State cafeterias, where people could obtain a dinner of seven courses with wine for a nickel.

He did not inform them that, by means of the referendum, they could eliminate all laws for the collection of debts from the code of civil procedure and change the penal code so that telegraph-tapping and re-bating would no longer be crimes.

He did not illustrate his argument in favor of the recall of the judiciary by showing how every convicted thief and murderer and every loser in a civil suit could get a new trial by bringing about the recall of the judge who so instructed the jury that they brought in an adverse verdict.

**THE GOVERNOR AND SECRETARY OF STATE.**

As a whiffer, a trickster and a slanderer Gov. Johnson would be entitled to the champion belt were it not for the fact that his whiffing is so apparent, his trickery so futile and his slanders so shamelessly and openly false, so unwarranted and so unsustained by the records that his own actions and utterances condemn him.

First, while professing friendship for Secretary of State Jordan and a willingness to co-operate with him in securing efficiency in the discharge of his official duties, he tried to influence the Legislature to enact a law that would cripple him in the administration of his duties. Next, after the adjournment of the Legislature, he did not fall on all occasions to misrepresent and try to injure Secretary Jordan. Lastly, in the matter of a submission of the constitutional amendments

"He wired in and wired out, Until he left the mind in doubt Whether the snake that made the track Was going forth, or coming back."

Section one of article xviii of the Constitution requires that "all amendments shall be entered in the journals of each branch of the Legislature with the yeas and nays taken thereon." This provision is not directory, but mandatory. It was the duty of the Secretary of State, before ordering the amendments to the Constitution to be printed upon the ballot, to ascertain whether this section of the Constitution had been complied with.

There were two methods of ascertaining this. One was to take the certificate of the secretary of the Senate and the clerk of the House and the chaptering of the Governor that the amendments had been so entered as conclusive proof of the fact. The other was to examine the journals of each branch of the Legislature and ascertain whether the entries required by the Constitution had been duly made.

Secretary Jordan applied to the Attorney-General for advice and was informed by that officer that it was his duty to disregard any certifications of the officers of the Legislature which were not in accordance with the facts, but to go to the journals of the Legislature and ascertain "the exact language of the amendments that received the approval of the requisite number of the members of the Legislature, as shown by the journals."

Complying with this direction of the Attorney-General, Secretary Jordan made examination of the Constitution. He found from those journals no proof that Senate Constitutional Amendment No. 13 had ever received the approval of the Assembly. He found that Senate Constitutional Amendment No. 6 was defective, and that errors had been made by the officers of the Legislature in certifying and enrolling and by the Governor in chaptering Assembly Constitutional Amendment No. 2.

Secretary Jordan reported these facts to the Attorney-General, when that officer, who in the meantime had consulted with and been subjected to the solicitations of Gov. Johnson, changed his advice and informed Secretary Jordan that "entries in journal which identify the constitutional amendments under consideration"—that is to say, entries by title only—"are a sufficient compliance with the provisions of section one of article xviii of the Constitution."

In other words, Secretary Jordan was advised to take the certificate of the legislative officers and of Gov. Johnson of what ought to have been done as sufficient proof that it was done.

Secretary Jordan, being thus directed by the Attorney-General and the Governor, complied with the direction and ordered the amendments to be printed upon the ballot.

—

Whether the amendments in question—

adopted—will stand the test of judicial investigation by the Supreme Court remains to be seen. That tribunal may sustain Johnson's claim that his interpretation of the law that his certificate—that a fact existed when it did not exist—is to be received in preference to record proof of its non-existence—and it may decide the other way, and tumble the amendments into the scrap heap.

The shameful fact that this controversy has made prominent is that Secretary Jordan's natural and commendable hesitancy in ordering the amendments to be printed upon the ballot until advised to do so by the Attorney-General was characterized by Gov. Johnson as "rot" and as "a job on foot to prevent the direct-legislation amendment being submitted" and as an attempt on the part of Secretary Jordan "to Jockey official documents and thwart the will of the people."

Secretary Jordan has not suffered the slanderous and unwarranted attack made upon him by Gov. Johnson to pass by unanswered. He has not turned his other cheek to be smitten. He has, on the contrary, defended himself with a vigor of words and wealth of adjectives that would pierce Gov. Johnson to the quick were it not that our executive has the pachydermatous hide of a rhinoceros. Secretary Jordan's defense and counter-attack—portions of which have been published in The Times—makes "mighty interesting reading."

**A DOGBERRY COMES TO JUDGMENT.**

[Denver Republican:] Gov. Johnson of California belongs to the "insurgent" division of his party—the Republican party—and he has lived up to his reputation as something apart. He has been performing "stunts" in connection with the McNamara arrests. An officer armed with extradition papers signed by Gov. Johnson went to Indiana and took part in the arrest or extradition of one of the accused dynamitards. Now he is to be returned to Indiana by the same Gov. Johnson on a charge of kidnaping.

**MUSEUM MANNERS.**

The trustees of the Boston Museum of Fine Arts are managing a plan whereby the children of the remote districts are brought to the museum and introduced to its galleries. The children in groups of fifteen to sixty are gathered in the outlying playgrounds or at the settlements, a special car is provided and the woman in charge marshals her little flock to the museum.

They are first taken to the lecture-room. Thus far three have been observed this year, being designated respectively comet a 1911, discovered by Max Wolf at Heidelberg; comet a 1911, discovered by C. C. Kress at the Lick Observatory, and the one which will henceforth be known as comet a 1911 (Brooks).

Our astronomer was born in England in 1844, came to America with his father, a Baptist minister, in 1857, and after quitting school, served for three years in a Buffalo machine shop. He constructed his first telescope himself and did such good work with it that William Smith of Geneva built an observatory for him and equipped it with a ten-inch equatorial telescope—the one with which he has been enabled to make his splendid discoveries.

Under the wheels of the "Orpheum" in Los Angeles, the "dean of Orpheum" died Saturday morning. His name was Charles E. Clark, 62, and he had been connected with the theater for 20 years. He was a tall, thin man with a kindly face and a gentle manner. He was a member of the Knights of Columbus and a member of the Masonic Lodge.

**THE NEW BROOKS COMET.**

Now Visible to the Naked Eye in the Constellation Cygnus. Three Degrees from the Head of the Northern Cross. Now Speeding Rapidly Towards the Sun.

BY WILLIAM H. KNIGHT.

A recent dispatch announces that the comet discovered in July by W. R. Brooks of the Smith Observatory at Geneva, N. Y., is growing brighter and will soon be visible to the naked eye. Young Mars Baumgardt of Los Angeles, who takes a keen interest in all astronomical events, located the new comet on Friday evening with his field glass. It was then about two degrees west of the second magnitude star Alpha Cygni, the star which marks the top of the Northern Cross, and is almost directly overhead at 9 o'clock. Saturday evening I viewed the comet through the Hooker telescope and it had moved to the close vicinity of a small star of the sixth magnitude, about three degrees west of Alpha Cygni, and to the keen eye of Mars it was seen as a faint, diffused nebosity without the aid of an instrument.

In a Lick Observatory bulletin of July 29 it is designated comet a 1911, and the ephemeris shows that it is approaching perihelion, or that portion of its orbit nearest to the sun, which it will reach October 27. As the inclination of its orbit is only 23 degrees from the ecliptic, it is probably a short-period comet and may be one of the numerous family of Jupiter or of Saturn. At present there is no suggestion of a bright nucleus or of a tail, but both may be developed as it gets nearer to the sun.

Astronomer Brooks has many claims to his credit, having discovered twenty-five previous to the present year, more than any other living astronomer. His eighth comet, one of short period, in 1881, was the celebrated Pons comet after a period of seventy-one years. This established his reputation. He discovered it in 1885, three in 1886 and two in 1887. One of the latter was the celebrated Olbers-Brooks comet of long period.

The comet of 1889 was notable for its rapid approach to the sun, which was preceded by four small, detached comets, whence the aggregation was called Brooks' Multiple comet. While its period was short and it evidently belonged to the Jupiter family, upon tracing its orbital history it was believed to have formerly been a member of the Saturn family with a period of thirty years, and on one of its returns to perihelion became entangled with one of Jupiter's moons and thus got its orbit twisted and shortened. It is even intimated that a portion of its substance furnished the material for Jupiter's fifth satellite discovered by Barnard in 1892.

to the other station," he said, as he  
stepped into the machine with her  
and pointed out the way.

She drove to the station with him.  
There the traffic rules were patient-  
ly explained to her by Officer Beale,  
who made the arrest, but Mrs. Jacobs-Bond  
thought they were very poor  
regulations, and she said so.

"You said defiantly, eying  
the officer, "what are you going to do now?"

"Your bail will be \$5."

"You shan't get it. Now what  
do you say?"

The Chicago woman assumed an  
air of triumph and plainly showed  
that she considered the matter set-  
tled. "Oh, nothing, but put you in jail  
until court opens," Beale answered.

"What?" she exclaimed. "Put me  
in jail?" "Where is the jail?"

The door was but a few feet from her  
and it was pointed out.

She ran lightly up the steps lead-  
ing to the entrance, gave a hurried  
glance through the bars, and then  
ran back to the desk where the  
officer was writing.

"Here's \$5. I certainly don't want  
to go in there," she said.

She dropped a \$5 gold piece on the  
desk and asked for a receipt. She  
was told that her labor was her re-  
ceipt, and she left hurriedly.

Her case was called in the  
Police Court by Judge Williams  
there was no answer, and the bail  
was forfeited.

According to Dr. D. F. Frederick, the challenge to the south Americans to a column of white ants have a pretty fast bunch of cards and around San Francisco and a special doctor is not very far wrong.

His challenge has not taken up and for the first time a considerable number of the cards are now well along in the tournament. If they do not win the northern men will know that they have been in a contest at any rate advantage is conceded, for they are accustomed to the course and are putting greens such as are in the Del Monte. But the Southern men are to be given the card several days before the tournament begins, in order to acquaint themselves with the ground and make required changes in style of play to meet the grass greens.

SATURDAY START.

The tournament will commence next Saturday morning with a thirty-six-hole medal play qualifying round. The men who return the best scores will qualify for match play for the Del Monte championship. There will be a draw for the winner, and the man making the best heat score will play for the Del Monte cup in the same manner.

There will be as many flights as there are multiples of sixteen among men and multiples of eight among women, with prizes for each flight.

Wednesday, September 3, there will be a team match between players of Northern California against players of Southern California and this is expected to be one of the most interesting events of the meet, as such an international competition is being organized.

HINT. At present, when there are so many sum-  
mer inflammation of the throat and lungs is apt to  
be remedy may be well to know. Into a quart of  
the teaspoonful of tincture of benzoin; make a  
cup which to cover the basin and through the tube of  
the steam of the steaming fluid. It may be necessary  
to light a spirit lamp to keep the liquid warm. The  
smoke will permeate the head, lungs and throat,  
giving immediate relief.

Food can be  
eaten to  
make a distin-  
tive difference  
in this short  
time. Some  
cottage cheese  
for years  
all, the alter-  
native. Perhaps, it  
may have  
something quite  
of nourishment  
about to prepare  
a simple menu  
to the fol-  
lowing: white bread,  
white meat, some  
brown and yellow  
biscuits, and  
coffee with a  
little cream and  
a pinch of sugar.  
A good  
dinner should  
be had at  
least once a  
week.

The Dominions  
have a substantial  
representative  
in the Inter-  
national. They  
are now at the  
United States  
Bureau of the  
Dominions  
have been touring  
overland.  
It is predicted that before  
the year is out every  
practically every  
woman will have  
had another  
altercation. One  
will not be able  
to keep up  
with the other  
at some time.  
I am sorry to  
devise a  
problem  
that will look  
stunning.

## New Silks.

That reminds me of the new silks. They have just arrived, at one of the best Broadway houses. I notice some of black peau de cygne with borders in floral designs—perfectly charming they are. There are other too-brown, green, navy and lighter shades, but the black is most striking and most elegant. With such reinforcements as these, good will not be likely to wear in popularity this season, nor next.

## Fashion's Forecast.

Challis for fall, always will have that way; and this season they are quite distinctive, with their soft, pastel coloring, and their exquisite borderings. Three of the big stores have received their fall stocks of these materials; and, really, the counters, a portion of an art gallery. Moreover, there is no reason why, for home and afternoon, nothing can take the place of this pliable fabric.

Nearly everywhere is to be seen the little, unostentatious bag that matches its own scalloped and initial done in white, and the bit of crocheted or drawn work on lace with which the owner's fair fingers are busy.

In the water theater and boudoirs, capes have their counterpart in the rubber bathing dress with its quizzical frill; and the satin bandeau that on land is worn everywhere to prevent the ravages of the "breeze," gives a very fetching touch to the swimming costume, making it beautiful, an otherwise ugly headdress.

Milan lace is coming into first fashion for thin frocks. It has a coarse mesh and a wide, bold design worked out on the edges, and is much used, and it is widely used in hand-gowns, and coats when it is half-covered with thick, padded Chinese embroidery.

Garnitures have been brought out in entirely new shapes. A new trimming by the yard consists of square or oblong motifs with triangular or fancy pieces fitted against the lower side of each parallelogram. Frequently the narrow band runs along the top.

As the season wanes that which, perhaps, forces itself most upon one's notice is the fad for marabout. A terry material on light, filmy fabrics cannot help but be attractive. You see we are submerged again this morning with stuff for which the towns all over the State are crying. How I wish I could send with each bunch of educational matter a description of our feelings after our victory last Saturday at The Times straw ballot on women's suffrage.

Evening gowns are becoming more and more empire in style and more clinging as the months go by. In spite of predictions to the contrary, all the new gowns are made up over an under-dress of some soft, clinging silk or satin with a tunic or redingote over-dress.
